## TPD Happenings

- Our Criminal Investigations Unit has been working arduously to solve our recent robberies— they have identified the suspect(s), obtained warrants but suspects are in custody in other jurisdictions. This puts us in 'hold mode' until the other jurisdictions are finished with them.
- Our crime analysis software is ready to be loaded to the server. We are excited about how this component will add to and enhance our ability to address problems that arise.
- We conducted a hiring board the Training Sergeant is now in the process of conducting background investigations on those who passed the oral board.
- We are currently working on putting together a Crime Scene Unit. We will be using one of our detectives, providing them with the training to process crime scenes. This goes along with current strategic plan to address various violent and property crime.
